FACULTY OF DENTISTRY CHULALONGKORN UNIVERSITY

Faculty of Dentistry, Chulalongkorn University
proudly represents Thailand as ranked
by QS World University Rankings: by Subject Areas 2026

Dent Chula on the Global Stage

The beginning of 2026 marks a proud milestone for the Faculty of Dentistry, Chulalongkorn University. We are honored to be ranked #32 in the world in the QS World University Rankings by Subject (Dentistry). This achievement reflects the collective dedication and hard work of our faculty members, researchers, staff, students, and alumni who continuously contribute to advancing Dent Chula toward international excellence.

“

**We are honored to be ranked
#32 in the world in the QS
World University Rankings by
Subject (Dentistry).**

Importantly, this accomplishment has also been made possible through the strong support and collaboration of our international partners and academic collaborators around the world. Their continued engagement in joint research, academic exchange, and educational initiatives has played a significant role in strengthening our global academic community. I would like to take this opportunity to express my sincere appreciation to all our partners for their trust, collaboration, and shared commitment to advancing dental education and research.

During the first quarter of the year, the faculty has continued to make progress across multiple dimensions, including education, research, and international collaboration. This recognition is more than a ranking; it reflects the shared efforts of our entire community and our partners in creating meaningful impact in dentistry and improving oral health both nationally and globally. 🦷

Prof. Pornchai Jansisyanont

Dean, Faculty of Dentistry Chulalongkorn University

**Faculty of Dentistry, Chulalongkorn University
proudly represents Thailand as ranked
by QS World University Rankings: by Subject Areas 2026**

The Faculty of Dentistry, Chulalongkorn University extends its sincere congratulations to Mrs. Saranya Phuminart Nurse Anesthetist, Faculty of Dentistry

On the occasion of her appointment approval by the Personnel Management Committee (Meeting No. 12/2025) to the position of “Primary Level Expert in Nursing”, effective from 24 April 2025 onwards.

The Faculty commends her dedication, commitment, and professional excellence, which continue to serve as a vital force in advancing the Faculty’s mission. 🦷

Faculty of Dentistry, Chulalongkorn University extends warmest congratulations to Associate Professor Dr. Wannakorn Sriarj Department of Pediatric Dentistry

On receiving the Outstanding Teaching Award (Excellent Level) from the Academic Fund in Honor of His Majesty the King, 2024.

This distinguished recognition reflects her dedication, commitment, and excellence in dental education, serving as an inspiration to the academic community. 🦷

Faculty of Dentistry, Chulalongkorn University, extends our heartfelt congratulations to Dr. Chanakorn Sinseereekul on being awarded 1st Place for Poster Presentation

The Faculty of Dentistry, Chulalongkorn University proudly congratulates to Dr. Chanakorn Sinseereekul, on receiving the 1st Place Award for Poster Presentation at the International Collaborative Symposium on Development of Human Resources in Practical Oral Health and Treatment, jointly organized by the Faculty of Dentistry, Niigata University, Japan, and the Faculty of Dentistry, Universiti Kebangsaan Malaysia, Malaysia, held on 8-9 February 2026 in Kuala Lumpur, Malaysia.

This outstanding achievement reflects academic excellence, dedication, and the strong international presence of our faculty members on the global stage.

We take great pride in this accomplishment and wish her continued success in advancing impactful scholarly work internationally. 🦷

CONGRATULATIONS

Congratulations to all professors of the Faculty of Dentistry, Chulalongkorn University, who were honored at the Recognition Ceremony for Chulalongkorn University personnel who brought distinction to the University at the national and international levels for the year 2025, held on Tuesday, 10 February 2026, at Centara Grand & Bangkok Convention Centre at Central World, Bangkok. 🦷

This year, the Faculty of Dentistry, Chulalongkorn University, had 17 members of its academic staff who received national and international awards, as follows:

1. Assist. Prof. Chayanit Chaweewannakorn

● “The Outstanding Presentation Award” at the Scientific Annual Meeting of ADEAP & CA + inD International Symposium 2024

2. Assoc. Prof. Oranart Matangkasombut

● “The Best Country – Region Award” at the Asia Academy of Preventive Dentistry 2024

3. Assoc. Prof. Panida Thanyasrisung

● “The Outstanding Presentation Award” at the Asia Academy of Preventive Dentistry 2024

4. Assist. Prof. Siriporn Songsiripraduboon

● “The Lion Award (Senior Category – Second Runner-up)” at the Asia Academy of Preventive Dentistry 2024

5. Assoc. Prof. Chidsanu Changsiripun

● “The Rising Star of APOS Award” at the 14th Asian Pacific Orthodontic Congress

6. Assist. Prof. Vorapat Trachoo

● “Gold Medal Award”

7. Dr. Phan Bhongsatiern

● “The Poster Presentation Award (Basic Research)” at the 110th Annual Meeting of the American Academy of Periodontology (AAP), held in conjunction with the Japanese Society of Periodontology and the Japanese Academy of Clinical Periodontology (AAP-JSP/JACP)

8. Assoc. Prof. Boosana Kaboosaya

● The Grand Prize Award and Gold Medal Award from the World Invention Intellectual Property Associations (WIIPA)

9. Assist. Prof. Pimchanok Suthiboonyapan

● The First Runner-up Award and the Special Award to Excellence English Presentation at the ARISTOTLE Global Competition, an international research competition organized by the Taipei Medical University (TMU) College of Oral Medicine

10. Dr. Panatcha Weerapol

● The First Runner-up Award for Scientific Oral Presentation at the ASEAN Geriatric Dentistry Conference 2025 (AGDC 2025)

11. Dr. Sunporn Namano

● The 2nd Runner-up Award – Straumann Next Gen Vol.2 at the ITI Congress Thailand 2025

12. Dr. Oraphan Rungrojwittayakul

● The 4th Runner-up Award– Straumann Next Gen Vol.2 at the ITI Congress Thailand 2025

13. Dr. Supassara Chanpakorn

● The Lion Award for Oral Presentation (Third Winner) for a research presentation at the Asia Academy of Preventive Dentistry academic conference 2025

14. Prof. Thantrira Porntaveetus

● The First Prize in the IADR-SEA Divisional BIOGAIA Research Award at the IADR-APR academic conference 2025

15. Assoc. Prof. Nuttapol Limjeerajarus

● The First Prize in the IADR-SEA Divisional BIOGAIA Research Award at the IADR-APR academic conference 2025

16. Prof. Thanaphum Osathanon

● The Top 2% Scientists Award

17. Prof. Atiphan Pimkhakham

● The Top 2% Scientists Award

Congratulations to Young Investigators

On the occasion of receiving the 2025 Research Awards,
in recognition of your dedication, commitment, and the creation of valuable
and impactful research contributions

Congratulations to Mid-Career Researcher

On the occasion of receiving the 2025 Research Awards,
in recognition of your dedication, commitment, and the creation of valuable
and impactful research contributions

CONGRATS

The Faculty of Dentistry,
Chulalongkorn University
would like to extend our
heartfelt congratulations to
Prof. Dr. Sutada Lotinun, on
her royal appointment as
“Professor” in the field of
Physiology. 🦷

Congratulations to Senior Researcher

On the occasion of receiving the 2025 Research Awards, in recognition of your dedication, commitment, and the creation of valuable and impactful research contributions

Congratulations on Research Excellence Awards

STAR – RU – CE / Research Centers

On the occasion of receiving the 2025 Research Awards, in recognition of your dedication, commitment, and the creation of valuable and impactful research contributions

Khon Dee Sri Chula

The Faculty of Dentistry, Chulalongkorn University, extends its congratulations to the personnel of the Faculty of Dentistry who were honored by Chulalongkorn University at the recognition ceremony for operational staff, “Khon Dee Sri Chula”, under the Personnel Development Fund for the year 2025.

The ceremony was held on Friday, 13 February 2026, at Sala Phra Kiao, Chulalongkorn University.

This year, the Faculty of Dentistry, Chulalongkorn University, received the following awards:

1. Mr. Tadech Nguempra

Recognition Award for Operational Staff, “Khon Dee Sri Chula,” Individual Category, for operational staff and professional personnel serving in positions below the bachelor’s degree level

2. The Faculty of Dentistry, represented by Miss Sirikanlaya Attasiri, Administrative Director, received the Recognition Award for Operational Staff, “Khon Dee Sri Chula,” outstanding large group category on behalf of the working group for the Chula Health Fair activity, which promoted physical and mental health as well as well-being among the Chulalongkorn community (under the Chula Preventive Health Care Project, fiscal year 2025). 🦷

The Faculty of Dentistry, Chulalongkorn University, extends its congratulations to professors who were promoted to higher academic positions at the 910th University Council Meeting, held on 26 February 2026.

The following 3 professors were promoted to the rank of Associate Professor:

- + 1. Assoc. Prof. Supreda Srithanyarat
- Periodontology
- + 2. Assoc. Prof. Thunshuda Sumphaongern
- Anesthesiology
- + 3. Assoc. Prof. Sirinya Kulvitit
- Endodontics

The following 1 professor were promoted to the rank of Assistant Professor:

- 1. Assist. Prof. Chanakarn Sinsareekul
- Endodontics

Thailand Quality Award

The Faculty of Dentistry, Chulalongkorn University, proudly congratulates Assist. Prof. Issarapong Kaewkamnerdpong, Associate Dean for Strategy and Organizational Development, on being invited by the Thailand Quality Award Office, Thailand Productivity Institute to serve as an Examiner for the Thailand Quality Award 2025 (B.E. 2568) for the fifth consecutive year.

This continued appointment reflects his recognized expertise and leadership in organizational management aligned with the Thailand Quality Award framework, which plays a vital role in elevating organizational performance to international standards and strengthening Thailand's sustainable competitiveness. 🦷

Dental Hospital, Faculty of Dentistry, Chulalongkorn University Reaffirms Quality Standards with Reaccredited HA Step 3

The Dental Hospital, Faculty of Dentistry, Chulalongkorn University, received the 2026 Healthcare Accreditation certificate at the 26th HA National Forum, held from 10–13 March 2026 under the theme “Compassionate Innovation: Shaping the Future of Care” at the Grand Diamond Ballroom, IMPACT Forum, Muang Thong Thani.

On this occasion, the Dental Hospital, Faculty of Dentistry, Chulalongkorn University, was granted Reaccredited HA Step 3 status by the Healthcare Accreditation Institute

(Public Organization).

This achievement reflects the organization's continued commitment to advancing healthcare quality, ensuring patient safety, and delivering standardized care through ongoing quality improvement for the highest benefit of its patients and service users. 🦷

The Faculty of Dentistry, Chulalongkorn University, extends its congratulations on the achievements of its professors, faculty members, and students at the Chulalongkorn University Personnel Recognition Ceremony 2026, held on Wednesday, 11 March 2026, at the Chulalongkorn University Auditorium.

Asia Bone and Tissue Osseointegration Symposium 2026

The Faculty of Dentistry, Chulalongkorn University, led by faculty members and postgraduate students from the Department of Periodontology, participated in the Asia Bone and Tissue Osseointegration Symposium (A-BTO 2026), held on March 28-29, 2026, in Bangkok, Thailand.

Presenters included Assist. Prof. Wichaya Wisitrasameewong, Dr. Phurirut Rattanaphun, Dr. Nonpavit Leelahawong, Dr. Issarapa Wongkertprayot, and Dr. Minprapa Asavisanu.

They also submitted their work to the A-BTO Young Clinician Poster Award competition and achieved outstanding recognition. Phurirut Rattanaphun received the 1st Place A-BTO Young Clinician Poster Award under the supervision of Assoc. Prof. Sirikarn Arunyanak, while Minprapa Asavisanu received the 2nd Place A-BTO Young Clinician Poster Award under the supervision of Assoc. Prof. Kajorn Kungsadalpipob.

These achievements reflect the Faculty's strong academic and research capabilities and reinforce the role of the Faculty of Dentistry, Chulalongkorn University in advancing Thai dentistry on the international stage. 🦷

Dent Chula Hosts AVEP 2025 to Strengthen Academic Networks and Knowledge Exchange

The Faculty of Dentistry, Chulalongkorn University, in collaboration with the International Affairs of Dental Student Committee, organized the Academic Visit and Exchange Program (AVEP) 2025 in the theme of “Emergency Dentistry” from December 12–16, 2025. The program aimed to foster relationships and promote the exchange of academic experiences among dental students from Thailand and abroad. This year, a total of 43 international dental students and one professor from 13 universities around the world participated in the program. 🦷

Faculty of Dentistry, Chulalongkorn University Welcomes Prof. Kenji FUEKI from Institute of Science Tokyo for Landmark MOU Signing Ceremony

Faculty of Dentistry, Chulalongkorn University welcomed a delegation from Kyung Hee University School of Dentistry, Republic of Korea, led by Prof. Yong-Dae Kwon (Dean) and Assoc. Prof. Hyun-Chang Lim (Department of Periodontology). The visit aimed to discuss academic collaboration, including potential inbound student exchange opportunities. The program featured institutional presentations by both universities, a discussion meeting, and a faculty tour on 12 January 2026 at the Faculty Board Meeting Room of the Faculty of Dentistry, Chulalongkorn University. 🦷

Faculty of Dentistry, Chulalongkorn University welcomed a delegation from the Institute of Science Tokyo, Japan, led by Prof. Kenji FUEKI (Dean), accompanied by Prof. Takashi ONO, Prof. Keiji MORIYAMA, and Ms. Hitomi IIZAWA. The visit aimed to discuss academic collaboration, the implementation of a joint degree program, and the signing of a Memorandum of Understanding (MoU). The delegation also joined exchange activities with faculty members and students, including a Q&A session and one-on-one consultations on research, to

strengthen collaborative networks and foster a sustainable academic partnership between the two institutions.

Thursday, 15 January 2026, Rareuk Khun Auditorium, 2nd Floor, Boromanathsrinagarindra Building Faculty of Dentistry, Chulalongkorn University. 🦷

Faculty of Dentistry, Chulalongkorn University, Hosts Special Lecture on “Integrative Orthodontic Management” in Collaboration with the University of Sydney.

The Faculty of Dentistry, Chulalongkorn University, led by the Research and Innovation Affair, and Department of Orthodontics organized a special lecture entitled “Integrative Orthodontic Management” on 19 January 2026. The lecture was honored by Professor Ali Darendeliler.

The lecture was held under an academic collaboration between the Faculty of Dentistry, Chulalongkorn University, and the Faculty of Dentistry, The University of Sydney. This special lecture enhanced knowledge in integrative orthodontic management, promoted academic knowledge exchange, and strengthened international academic collaboration in a tangible and meaningful manner. 🦷

Faculty of Dentistry, Chulalongkorn University Welcomes Delegates from the College & Hospital of Stomatology, Guangxi Medical University to Discuss Academic Collaboration

The Faculty of Dentistry, Chulalongkorn University, welcomed delegates from the College & Hospital of Stomatology, Guangxi Medical University (People’s Republic of China), led by Prof. Xiaojuan Zeng, for a visit to discuss academic collaboration, exchange perspectives, and tour the Faculty—strengthening sustainable partnerships for the future. Wednesday, 21 January 2026, at the Faculty Board Meeting Room of the Faculty of Dentistry, Chulalongkorn University. 🦷

FDCU Welcomes Exchange Dental Students from Kyung Hee University for Visiting and Observing Clinical Practices

From January 12 to 16, 2026, the Faculty of Dentistry, Chulalongkorn University welcomed 3 undergraduate exchange students from the College of Dentistry, Kyung Hee University, South Korea, to participate in an exchange program aimed at observation visits and gaining hands-on learning experiences in dentistry.

Throughout the program, the exchange students visited and observed various clinics and units, as follows:

- Operative Lab
- Radiology Clinic
- Digital Dentistry Lab
- UG Pediatric Clinic
- Endodontic Lab
- Oral Maxillofacial Surgery Clinic

On the final day of the program, Prof. Pornchai Jansisyantong, Dean of the Faculty of Dentistry, presented certificates of participation for the exchange program and souvenirs to all 3 students. The Faculty hopes that this activity will serve as a foundation for further academic collaboration and future exchange initiatives. 🦷

Faculty of Dentistry, Chulalongkorn University Welcomes executive team from Yonsei University to Discuss Research Collaboration and Strengthen International Networks

The Faculty of Dentistry, Chulalongkorn University, welcomed executive team from Yonsei University (Republic of Korea), led by Prof. Young Soo Jung (Dean), together with Prof. Jung Yul Cha (Vice Dean for Academic Affairs) and Prof. Sunil Kim (Vice Dean for Planning Affairs).

The visit aimed to discuss research collaboration and strengthen international academic networks. The meeting was held on Friday, 23 January 2026, at the Faculty Board Meeting Room of the Faculty of Dentistry, Chulalongkorn University. 🦷

Faculty of Dentistry, Chulalongkorn University and Institute of Science Tokyo Host Collaborative Matching Day 2026

The Faculty of Dentistry, Chulalongkorn University, in collaboration with the Faculty of Dentistry, Institute of Science Tokyo, organized the CHULA–Science Tokyo Matching Day on 27 January 2026.

The event served as an important platform for the exchange of ideas and the strengthening of academic and research collaboration among faculty members, researchers, and partners from both institutions. It was held in both on-site and online formats to promote sustainable international academic collaboration. 🦷

FDCU Welcomed Dental Students from National Taiwan University to Visit the Faculty's Clinics and Various Departments

The Faculty of Dentistry, Chulalongkorn University welcomed four fourth-year exchange students from National Taiwan University during January 19–23, 2026, for a study visit and clinical observation across several clinics and units. On the final day, Prof. Pornchai Jansisyantong, Dean of the Faculty, presented certificates and souvenirs, with the hope of strengthening future collaboration between the two institutions. 🦷

Faculty of Dentistry, Chulalongkorn University, Partners with Fujian Medical University to Advance Academic Excellence and Dental Research

The Faculty of Dentistry, Chulalongkorn University, led by Professor Dr. Pornchai Jansisyanont, Dean of the Faculty of Dentistry, visited Fujian Medical University School of Stomatology in Fuzhou, Fujian Province, People's Republic of China, during 28 – 30 January 2026, to strengthen academic and research collaboration between the two institutions.

This visit reflects the Faculty's commitment to advancing international academic partnerships and fostering sustainable collaboration in dental education, research, and innovation. 🦷

Faculty of Dentistry, Chulalongkorn University, Joins Science Tokyo & NSTDA Joint Workshop 2026 to Showcase AI and Biomedical Engineering Innovations

Assoc. Prof. Chalida Limjeerajarus, Head of the Department of Physiology, and Assist. Prof. Paksinee Kamolratanakul, Assistant Dean for Organizational Development and Performance Improvement, Faculty of Dentistry, Chulalongkorn University, served as speakers at the Science Tokyo & NSTDA Joint Workshop 2026, entitled “Biomedical Engineering & AI: The Cutting Edge of AI Applications in Medical-Engineering Collaboration,” held on 29 January 2026 at the Rembrandt Hotel, Bangkok.

This event focused on the exchange of knowledge on the application of artificial intelligence (AI) and biomedical engineering, with the aim of fostering international academic collaboration. 🦷

FDCU Welcomed Exchange Students from Kyungpook National University (South Korea) for a Clinical Observation Visit and Study Tour of the Faculty's Clinics and Departments

The Faculty of Dentistry, Chulalongkorn University welcomed four exchange students from Kyungpook National University (South Korea) during 26–30 January 2026 for a clinical observation and study tour, including visits to the faculty's clinics and various departments. The program also featured museum visits, a meeting with the Dean, and participation in a King Mobile Dental Unit outreach visit to Baan Pakkret, Nonthaburi. The exchange aimed to promote knowledge sharing and strengthen sustainable educational collaboration between the two institutions. 🦷

Faculty of Dentistry, Chulalongkorn University Joins International Symposium in Malaysia to Advance Dental Human Resources

The Faculty of Dentistry, Chulalongkorn University participated in the international academic conference entitled the “International Collaborative Symposium on Development of Human Resources in Practical Oral Health and Treatment.”

The symposium was jointly organized by the Faculty of Dentistry, Niigata University and the Faculty of Dentistry, Universiti Kebangsaan Malaysia, and was held on 8–9 February 2026 at the Royale Chulan Kuala Lumpur in Kuala Lumpur, Malaysia.

On this occasion, Prof. Dr. Pornchai Jansisyanont, Dean of the

Faculty of Dentistry, and Prof. Dr. Thantrira Pornaveetus, Associate Dean for Research and Innovation, were honored to serve as Chairpersons. In addition, faculty members and students from the Faculty of Dentistry, Chulalongkorn University actively participated in academic and research presentations, attended scientific sessions, and engaged in scholarly discussions with representatives from various countries across the region.

The symposium provided a valuable platform for strengthening international collaboration and advancing the quality of dental education at the global level. 🦷

The Faculty of Dentistry, Chulalongkorn University, had the pleasure of welcoming Prof. Dr. Moyad Jamal Shahwan, Professor of Clinical Biochemistry and Head of the Center of Medical and Bio-Allied Health Sciences Research at College of Pharmacy and Health Sciences, Ajman University, United Arab Emirates, on 13 February 2026.

During his visit, Prof. Dr. Shahwan met with Prof. Dr. Porn-

chai Jansisyanont, Dean of the Faculty of Dentistry, and Prof. Dr. Thantrira Pornaveetus, Vice Dean for Research and Innovation, to discuss potential avenues for research and academic collaboration between the two institutions.

The visit marks an important step toward strengthening international partnerships and advancing collaborative research in medical and dental sciences. 🦷

FDCU Welcomed Exchange Students from The University of Sheffield for clinical observations and visits to various departments of the Faculty

The Faculty of Dentistry, Chulalongkorn University, welcomed 3 exchange students from The University of Sheffield during 9-20 February 2026 for visits and observational study at

various clinics and units of the Faculty, including the Operative Clinic, Pediatric Clinic, Periodontology Clinic, Orthodontics Clinic, and the Digital Dentistry Lab. The students also joined a community dental service activity with the Community Dentistry Unit at Wat Pathum Wanaram School, Bangkok.

This program reflects the faculty's role as a center of learning and an international collaboration network, while promoting the exchange of knowledge and clinical experience to further develop sustainable educational collaboration in the future. 🦷

FDCU Welcomed Exchange Students from The University of Hong Kong, Reinforcing Ongoing Academic Ties

The Faculty of Dentistry, Chulalongkorn University, welcomed 2 exchange students from The University of Hong Kong during 23-27 February 2026 for visits and observational study at various

clinics and units within the faculty, including the Oral Diagnosis Clinic, Occlusion Clinic, Radiology Clinic, Operating Room, Oral and Maxillofacial Surgery Clinic, and Pediatric Clinic. They also participated in an outreach activity with the King Mobile Dental Unit at Baan Pakkret, Nonthaburi. The program reflected the faculty's role as a learning hub and a center for international academic collaboration, while further strengthening ongoing educational cooperation for the future. 🦷

FDCU welcomed PhD exchange students from Universiti Malaya and Universiti Kebangsaan Malaysia to the Department of Orthodontics, fostering international academic collaboration and strengthening institutional networks

Faculty of Dentistry, Chulalongkorn University welcomed 12 PhD exchange dental students from two leading Malaysian institutions, Universiti Malaya (UM) and Universiti Kebangsaan Malaysia (UKM), with six students from each university, during 23 to 27 February 2026 for an academic visit and study tour at the Department of Orthodontics.

The visit represented another meaningful initiative that highlights the faculty's role as a hub for learning and international academic collaboration, while offering overseas exchange students the opportunity to closely experience the faculty's educational practices and academic environment. 🦷

FDCU Welcomed Exchange Students from Health Sciences University of Hokkaido for clinical observations and visits to various departments of the Faculty

The Faculty of Dentistry, Chulalongkorn University, welcomed 3 exchange students from the Health Sciences University of Hokkaido, Japan, during 4–6 March 2026, for visits and an observation program across various departments and units of the Faculty together with Prof. Takashi Saito.

The students visited the Vach Vidyavaddhana Museum and the Human Body Museum, and undertook clinical observations at key units, including the Periodontology Clinic (UG), Oral and Maxillofacial Surgery Clinic, Operating Room, and Endodontic Lab.

This activity highlights the Faculty's role as a hub for learning and international collaboration, fostering continued exchange of knowledge and shared clinical practices in a sustainable manner. 🦷

Representatives from the Faculty of Dentistry, Chulalongkorn University Participate in an International Conference at Kaohsiung Medical University, Taiwan

Faculty members and students from the Faculty of Dentistry, Chulalongkorn University participated in the International Conference of the 18th Research Day, College of Dental Medicine, Kaohsiung Medical University, held on March 13, 2026, at Kaohsiung Medical University, Taiwan.

On this occasion, Prof. Thantrira Pornaveetus, Associate Dean for Research and Innovation, engaged in academic networking and collaboration with international researchers and institutions in order to strengthen research partnerships and promote knowledge exchange in the field of dentistry.

Assist. Prof. Paksinee Kamolratanakul, Assistant Dean for Organizational Development and Efficiency Improvement, was invited as a speaker and delivered a lecture titled “Tissue Regeneration: From Bench to Patient Bedside: The Road to Impact.” Her presentation highlighted advancements in research and their translation into clinical applications for patient care.

In addition, postgraduate students from the Department of Oral and Maxillofacial Surgery presented their research in the Poster Presentation session, providing an opportunity to exchange ideas and research experiences with scholars from various countries.

Participation in this international conference provided an important platform for strengthening global academic collaboration and promoting the research potential of faculty members and students on the international stage. 🦷

Faculty of Dentistry, Chulalongkorn University Welcomes Indonesian Academic Delegation to Explore Research and Academic Collaboration in Oral and Maxillofacial Radiology

The Faculty of Dentistry, Chulalongkorn University warmly received distinguished guests from Indonesia on 10 March 2026, as Professor Pornchai Jansisyantont, Dean, together with faculty members of the Department of Radiology, welcomed Dr. Isti Rahayu Suryani, Head of the Department of Dentomaxillofacial Radiology, Universitas Gadjah Mada, and Dr. Muhammad Novo Perwira Lubis, Lecturer at Universitas Trisakti.

The visit served as an important opportunity to explore potential academic and research collaborations between the institutions, as well as to tour the Faculty and its Radiology Clinic. This engagement marks a meaningful step toward strengthening international partnerships in the field of Oral and Maxillofacial Radiology across the ASEAN region. 🦷

The executive team of the Faculty of Dentistry, Chulalongkorn University, led by Prof. Dr. Pornchai Jansisyantont, Dean, visited the Herman Ostrow School of Dentistry of the University of Southern California (USC) to strengthen academic and research collaborations. During the visit, they met with Prof. Mahvash Navazesh, Executive Associate Dean for Academic, Faculty and Student Affairs, and her administrative team on March 24, 2026. 🦷

The Faculty of Dentistry, Chulalongkorn University is set to participate in the IADR/AADOCR/CADR 2026 in San Diego, USA. Faculty members and students will present a diverse range of research and innovations across various fields of dentistry. This marks another important step for Dent Chula in advancing knowledge on the global stage and contributing to the future of Thai dentistry. 🦷

IADR/AADOCR/CADR 2026

The executive team, faculty members, and students of the Faculty of Dentistry, Chulalongkorn University participated in the IADR/AADOCR/CADR 2026 General Session and Exhibition, held at the San Diego Convention Center, San Diego, USA, from March 25 - 28, 2026.

Faculty members and students presented their research across a wide range of dental disciplines through both oral and poster presentations, reflecting the Faculty's strong research capacity and academic excellence on the international stage.

In addition, the Faculty hosted an exhibition booth to showcase its academic programs, research outputs, and international collaborations to researchers, academics, and participants from around the world. This provided a valuable opportunity to strengthen global partnerships and enhance international visibility.

Participation in this event marks another significant step in connecting knowledge to the global community and reinforces the Faculty of Dentistry, Chulalongkorn University's role as a leading dental school contributing to research, innovation, and the advancement of the profession for society. 🦷

The Guest Lecture was successfully concluded

We would like to express our sincere appreciation to all participants for their interest and attendance at the Guest Lecture on “From Chairside to Global Policy: Rethinking Prevention in Oral Health”, held on March 31, 2026, at Rareuk Khun Auditorium, Boromanathsrinagarindra Building, and via an online platform. 🦷

- The lecture was delivered by Prof. Habib Benzan,
- Honorary Professor, Faculty of Dentistry, Chulalongkorn University,
- Former Professor, NYU College of Dentistry.

FDCU Welcomed Exchange Students from Tohoku University and MAHSA University for a Clinical Observation Visit and Study Tour of the Faculty's Clinics and Departments

Faculty of Dentistry, Chulalongkorn University welcomed exchange students from Tohoku University, Japan, and MAHSA University, Malaysia, during 9-20 March 2026 for visits and clinical observation across various units and departments within the faculty.

Throughout the program, the students gained academic knowledge, learned about patient care and clinical practices, and visited the faculty's important museums as

well as notable landmarks around the university. On the final day, they were presented with certificates and souvenirs in recognition of their participation in the program.

This activity reflects the faculty's role as a center of learning and an international collaborative network, committed to promoting the exchange of knowledge and fostering continued and sustainable academic collaboration. 🦷

FDCU Welcomed Exchange Students from King's College London for a Clinical Observation Visit and Study Tour of the Faculty's Clinics and Departments

Faculty of Dentistry, Chulalongkorn University welcomed 4 exchange students from King's College London, United Kingdom, during 23-27 March 2026 for an academic visit and observational program across the faculty's clinics and departments.

During the program, the students visited the Vach Vidyavaddhana Museum and the Human Body Museum, while also gaining academic and clinical learning experiences in various areas of the faculty. At the end of the program, they received certificates of participation and souvenirs.

This activity reflects the faculty's role as a learning hub and an international academic collaboration network committed to fostering meaningful learning experiences and sustained educational cooperation. 🦷

Faculty of Dentistry, Chulalongkorn University Signs MOU with BNH Hospital to Elevate Dental Patient Care and Academic Excellence

MOU Signing Ceremony for Patient Care and Academic Cooperation

A Memorandum of Understanding (MOU) signing ceremony for cooperation in patient care and academic excellence was held between the Faculty of Dentistry, Chulalongkorn University, and BNH Hospital.

The agreement was officially signed by Professor Pornchai Jansisyanont, Dean of the Faculty of Dentistry, Chulalongkorn University, and Asst. Prof. Sappasith Panya, Assistant Dean for Patient Services.

Representing BNH Hospital were Dr. Nopparat Panthongwiriyaikul, Hospital Director, and Dr. Krit Kuruchaiyapanich, Deputy Hospital Director, who joined in formalizing this strategic partnership.

The partnership aims to recognize the importance of collaboration in enhancing patient care and academic excellence. The framework of this cooperation focuses on developing hospital quality and standards, while facilitating the exchange of institutional strengths to mutually address and improve clinical gaps.

The ceremony took place on Thursday, February 5, 2026, at the Executive Board Meeting Room, 18th Floor, Borommanat Srinakarin Building, Faculty of Dentistry, Chulalongkorn University. 🦷

Faculty of Dentistry, Chulalongkorn University Signs MOU with Thai Media Fund to Drive Creative Oral Health Communications

The Faculty of Dentistry, Chulalongkorn University hosted a Memorandum of Understanding (MoU) signing ceremony with the Thai Media Fund (Safe and Creative Media Development Fund) to jointly develop and produce safe, creative media on dentistry and oral health care. The MoU was signed by Professor Dr. Pornchai Jansisyanont, Dean of the Faculty of Dentistry, Chulalongkorn University, and Associate Professor Dr. Rangsim Sakoolnamarka, Vice Dean for International Affairs, Corporate Communications, and Social Engagement, together with Dr. Thanakorn Srisuksai, Manager of the Thai Media Fund, and Dr. Chamnan Ngammaneeudom, Deputy Manager of the Thai Media Fund, with senior executives and

honored guests in attendance as witnesses.

This collaboration aims to create content that is engaging, easy to understand, and academically accurate, combining creative communication with dental expertise so that oral health knowledge can reach wider audiences. The Faculty believes that the power of creative communication will make oral health care “closer to everyday life” and contribute to the sustainable improvement of public well-being in Thailand.

The ceremony took place on Wednesday, 18 February 2026, at the Faculty Board Meeting Room, 18th Floor, Boromanathsrinagarindra Building, Faculty of Dentistry, Chulalongkorn University. 🦷

Abstract

Objectives

This study aimed to assess the trueness of dental implant placement with robotic Computer- Assisted Implant Surgery (r- CAIS), compare it with non- guided and other CAIS approaches, and investigate potential differences between sites in the maxilla and mandible.

Materials and Methods

A literature search was carried out in Scopus, MEDLINE/PubMed, and Cochrane Library to find prospective clinical studies where r- CAIS was used either as the sole procedure or compared with other CAIS approaches. Studies reporting trueness measured by means of deviation on platform, apex, and angle were included.

Results

Nineteen studies were eligible. The overall implant deviation using r- CAIS was 0.75 mm (95% Confidence interval [CI] = 0.68; 0.83), 0.79 mm (95% CI = 0.71; 0.87), and 1.88° (95% CI = 1.55; 2.20), in platform, apex, and angle, respectively. r- CAIS showed significantly less deviation compared to non- guided implant placement. Moreover, r- CAIS demonstrated less apex and angle deviation than static CAIS, and less angle deviation than dynamic CAIS. No difference in the trueness between the maxilla and the mandible was noted.

Conclusions

Although several clinical trials on r- CAIS are now available, only a few comparative studies have been performed. Within these limitations, r- CAIS can achieve a high level of trueness in implant placement. Future comparative clinical trials with other implant placement methods are needed to augment the available evidence and provide more robust conclusions. 🦷

Treatment Outcomes and Prognostic Analysis of Root Canal-treated Posterior Cracked Teeth : The Modified Iowa Index

+ Norachai Wongkornchaowalit, DDS, MSc
Taratorn Soontornkiat, DDS, MSc
Tadkamol Krongbamee, DDS, PhD
Attawood Lertpimonchai, DDS, MSc, PhD
Keith V. Krell, DDS, MS, MA

Abstract

Introduction

Cracked teeth requiring root canal treatment present with variable prognoses. This study aimed to evaluate the treatment outcomes of root canal-treated posterior cracked teeth and to identify prognostic factors influencing endodontic outcomes.

Methods

A retrospective cohort of 263 cracked posterior teeth with 1-to 5-year follow-up was analyzed. The Iowa index was modified by sub-categorizing each stage according to crack extension. Outcomes were assessed using strict clinical and radiographic criteria. Cox regression analysis was performed to identify significant predictors of failure.

FIGURE 1 – The modified Iowa index classification. CL, crack line; DMR, distal marginal ridge; PARL, periapical radiolucency lesion.

FIGURE 2 – Kaplan-Meier analysis illustrating the estimated 5-year survival rate of cracked posterior teeth.

FIGURE 4 – (A and B) Clinical views revealed a cracked mandibular right second molar (tooth #31), which presented with moderate-to-severe spontaneous pain. The tooth was positive to percussion and bite test, negative to EPT, and displayed a deep periodontal pocket (10 mm) on the distal aspect. The preoperative diagnosis was pulp necrosis with symptomatic apical periodontitis. Preoperative Staging IV was established. (C and D) Intraoperative photographs showed a radicular crack extending into the distal root (yellow arrows). Postoperative Staging was IV-R. (E) A preoperative periapical radiograph demonstrated a periapical lesion at tooth #31. (F) A cone-beam CT scan (coronal view) showed a deep vertical fracture line along the distal root (yellow arrows). (G) The postobturation radiograph showed that gutta-percha was reduced to approximately 2 mm below the crack extension. (H) Intraorifice barrier placement and composite core buildup were performed. (I) A 3-year follow-up radiograph demonstrated complete periapical healing.

Results

The overall success and survival rates were 82.9% and 89.7%, respectively, with a mean followup period of 40.3 months. The estimated 2-year and 5-year survival rates were 99.2% and 78.6%, respectively. Multivariable analysis identified 7 independent predictors of failure: increasing age, pocket depth ≥ 5 mm along the crack line, radicular extension ≥ 3 mm, preoperative periapical lesion, multiple crack lines, absence of occlusal splint in patients with parafunctional habits, and restoration with onlay or composite. Cracked teeth with probing depths ≥ 5 mm (Stages I–III) showed favorable outcomes (success rate: 78.9%–98.3%, survival rate: 86.5%–100%), whereas those exhibiting both radicular extension and periodontal pocket ≥ 5 mm (Stage IV-R) had poor prognosis (success rate: 33.3%, survival rate: 63.0%).

FIGURE 3 – Proportion of success and failure in endodontically treated cracked teeth based on the combination of 2 prognostic factors: periodontal pockets (PD ≥ 5 mm) and radicular crack line. The group without either factor (no PD/no R) exhibited the highest success rate (93.2%), while the group with both factors (PD & R) showed the lowest success rate (33.3%).

Conclusions

The modified Iowa index, incorporating the classification of crack extension, demonstrated prognostic value. The combination of radicular crack and periodontal pocket ≥ 5 mm should be considered a high-risk profile when evaluating the treatment potential of cracked teeth. (J Endod 2026;52:79–88.)

The Faculty of Dentistry, Chulalongkorn University, Spreads Bright Smiles for National Children's Day

The Department of Pediatric Dentistry, Faculty of Dentistry, Chulalongkorn University, led undergraduate and postgraduate students on a community outreach volunteer activity to provide oral health education for children and their parents. 🦷

Saturday, 10 January 2026
9:00 AM – 3:00 PM

Sirindhorn Memorial Hall, 60th Anniversary Building, Srisavarindhira Thai Red Cross Institute of Nursing

▲ *The King's mobile dental unit* and services for the society, Faculty of Dentistry, Chulalongkorn University organized a preventive dentistry activity for students and teachers on Tuesday, 16 December 2025, at Baan Yu School, Chom Phra Subdistrict, Tha Wang Pha District, Nan Province.

▲ *The King's mobile dental unit* and services for the society, Faculty of Dentistry, Chulalongkorn University in collaboration with the Student Union of the Faculty of Dentistry, organized a Royal Dental Service outreach activity under the 26th Community Health Camp Project to provide dental services and promote oral health for schoolchildren and the general public on Sunday, 18 January 2026, at Baan Nong Prayaoat School, Tha Takiap District, Chachoengsao Province.

Dental Mobile Unit Joins Forces with GULF for “GULF Sparks Smile Year 6”

The Royal Dental Unit and Community Dentistry Department, Faculty of Dentistry, Chulalongkorn University, in partnership with Gulf Energy Development Public Company Limited (GULF), recently organized a mobile dental clinic as part of the “GULF Sparks Smile” project, now in its 6th year.

The initiative brought together volunteer dental faculty members, staff, and dental assistant students to provide essential oral healthcare services. The event took place at the Khlong Toei Youth Center on February 12, 2026.

The mobile unit saw a high turnout, with numerous residents from the local community and surrounding areas arriving to receive professional dental treatments. 🦷

▲ *The King’s mobile dental unit* and services for the society, Faculty of Dentistry, Chulalongkorn University in collaboration with the Royal Initiative Project of Her Royal Highness Princess Maha Chakri Sirindhorn, organized a Royal Dental Service outreach activity at Wat Nak Prok, Phasi Charoen District, Bangkok.

▲ *The King’s mobile dental unit* and services for the society, Faculty of Dentistry, Chulalongkorn University in collaboration with “Happy and Healthy Citizen, Royal Medical Service” organized by the Crown Property Bureau. The Royal Dental Service outreach activity was conducted at Wat Samian Nari School, Chatuchak District, Bangkok.

Q&A+

Prof. Shinya Murakami

Professor Emeritus Shinya Murakami, DDS, PhD
*Department of Periodontology and Regenerative Dentistry,
 Graduate School of Dentistry, The University of Osaka*

Q : From your extensive experience, how do you see international collaborations contributing to the advancement of dental science and the improvement of clinical practice worldwide?

A : When research and discussions take place solely within our own institutional or intellectual boundaries, truly groundbreaking achievements can sometimes be difficult to realize, or progress may take considerable time. International collaborative research provides valuable opportunities to engage with diverse philosophies, knowledge, and technologies that we may not encounter frequently in our everyday academic environments. Such exposure broadens our perspectives and fosters new ideas, ultimately contributing to the more efficient advancement of dental science and the improvement of clinical practice worldwide.

Q : As an Honorary Professor at the Faculty of Dentistry, Chulalongkorn University (Dent Chula), how do you envision your role in supporting and advancing our research and academic development?

A : Over the years, I have had the privilege of engaging in academic exchanges with colleagues at Dent Chula through a variety of opportunities. Being appointed as an Honorary Professor now offers me a meaningful opportunity to contribute more

directly to the further development and vitality of the faculty's research activities. I hope to support Dent Chula's academic growth by participating in discussions at multiple stages of research—from the initial brainstorming phase to the analysis of data and the consideration of future research directions.

Q : Having worked closely with Dent Chula over the years, how would you describe your impressions and feelings toward our faculty and academic community?

A : The faculty members and students at Dent Chula with whom I have worked are exceptionally talented and highly motivated. I have always been impressed by their strong intellectual curiosity and their genuine enthusiasm for scientific inquiry. Their commitment to pursuing research with both rigor and passion creates a highly stimulating academic environment.

“

**pursuing research
 with both rigor and
 passion creates a highly
 stimulating academic
 environment**

”

Q : Periodontal regeneration and tissue engineering are rapidly evolving fields. Could you share your vision on how research in these areas can be effectively translated into routine clinical practice?

A : Advances in periodontal regeneration and tissue engineering are progressing at a remarkable pace. Therefore, continuously staying informed about the latest developments in these fields is both natural and essential. With this knowledge as a foundation, it is important to clearly identify which existing clinical challenges our research findings can address. While researchers often aspire to broaden the range of its clinical applications, it can also be important to appropriately define and limit the indications when translating research outcomes into clinical practice. In addition, careful analysis of national clinical trial protocols and a thorough understanding of regulatory approval processes for medical products are indispensable steps in successfully bringing research outcomes into clinical use.

Q : The relationship between periodontal diseases and systemic health has gained increasing attention. In your view, how can we further elevate this issue to global concern and strengthen awareness among both healthcare professionals and the public?

A : The link between periodontal disease and systemic health has undoubtedly become an issue of global interest. At the same time, it is important to recognize that the scientific evidence supporting this relationship is not yet fully conclusive. For example, the bidirectional relationship between diabetes and periodontal disease is one of the most extensively studied and is supported by relatively strong evidence. However, periodontal treatment does not always improve HbA1c levels in all patients with diabetes. Some patients respond well to periodontal therapy, while others do not.

If we can better identify which patients with diabetes are most likely to

DENT CHULA

“Although the importance of medical-dental collaboration has long been emphasized, gaining widespread recognition of its significance among medical professionals is not always easy”

benefit from periodontal treatment, it will enable more effective and meaningful medical-dental collaboration and help clarify which patients stand to gain the greatest benefit from such integrated care. Although the importance of medical-dental collaboration has long been emphasized, gaining widespread recognition of its significance among medical professionals is not always easy. Universities and periodontal societies around the world should therefore continue to strengthen public outreach through various channels to raise awareness among the general public. At the same time, communication targeting a broad range of healthcare professionals is equally important. In this context, presenting high-quality scientific evidence will be essential.

“In many cases, it may take years of perseverance to reach the top. Yet there is a unique perspective that can only be seen once we have overcome that challenge and stand at the summit”

Q : As a world-renowned translational researcher in periodontology, what words of inspiration or advice would you like to share with our young researchers who aspire to make meaningful contributions to science and patient care?

A : The summit that stands before us—our research challenge—is often formidable, and overcoming it is rarely easy. In many

cases, it may take years of perseverance to reach the top. Yet there is a unique perspective that can only be seen once we have overcome that challenge and stand at the summit. I sincerely hope that young researchers will continue to pursue their scientific goals with determination and accumulate such meaningful experiences throughout their careers.

Good Luck! 🦷

Chulalongkorn University Dental Students Participate in International Exchange Program at Tohoku University, Japan

The Faculty of Dentistry, Chulalongkorn University, is proud to announce that 3 fourth-year dental students recently participated in the February 2026 CA+inD Winter Short-term Exchange Program at Tohoku University, Japan, from February 2–13, 2026.

This prestigious short-term exchange program brings together dental students from leading institutions around the world, providing a unique platform for cross-cultural learning, knowledge exchange in dental sciences, and the development of international academic networks.

The participation of Chulalongkorn University's dental students in this program reflects the Faculty's ongoing commitment to nurturing globally competent dental professionals, equipped with the skills, perspectives, and international exposure needed to excel in an ever-evolving global healthcare landscape. 🦷

On Monday, 20 March 2026, sixth-year dental students from the Faculty of Dentistry, Chulalongkorn University, visited the Colgate-Palmolive (Thailand) Co., Ltd. Factory at Amata Nakorn Industrial Estate, Bangna-Trat Road, Don Hua Lo Subdistrict, Mueang Chonburi District, Chonburi Province.

They received an introduction to the company's background and oral care products, and toured the manufacturing, packaging, and quality control processes for toothpaste and mouthwash products. 🦷

The Academic Affairs and Graduate Studies Division organized the Thai Language and Culture Learning Program (Batch 5) for international graduate students, the program took students on an off-campus learning experience at ICONSIAM, Bangkok., on Friday, 6 February 2026, from 12.00 to 5.00 p.m. The program included a Thai arts and handicrafts workshop, where students created miniature dragon jar paintings, providing an enjoyable hands-on learning experience and enhancing their understanding of Thai culture. 🦷

Dent Chula Music Fest 2026 has come to a warm and memorable close, filled with music, energy, and wonderful moments.

Our sincere thanks to the Freshy Year 1 band, The Dent band, faculty band, and guest performers for bringing such joy and vibrancy to special evening on 20 March 2026 at See Sirinsha Auditorium, 2nd floor, Somdejya 93 Building.

Thank you to all students, faculty members, staff, and everyone who joined us and made the event so meaningful. See you again at the next Dent CU activity 🦷
